Press Release

Join Axius Water® and the Axius businesses at WEFTEC booth 1313 and 329 in NOLA

NEW ORLEANS, LA USA (October 7, 2024): Axius Water®, a leading provider of nutrient management solutions for municipal and industrial wastewater treatment facilities, announced today they will be in booth 1313 and 329 at WEFTEC 2024, in New Orleans, LA. Visitors are invited to the booth to learn how the Axius team is stronger together in its mission towards stopping nutrient pollution around the globe. Technology highlights include solutions from EDI®, EOSi™, MITA Water Technologies®, Napier-Reid®, Nexom® and Triplepoint®.

Experts from all the companies will be on hand to talk about the challenges customers face in their water and wastewater processes and, the solutions available to solve those problems. The latest additions to the Axius technology portfolio are Triplepoint® who will be in booth 329 and in booth 1313, pile cloth filters from MITA Water Technologies, who is now an Axius company as well.

With 2,700+ years combined industry experience, Axius takes pride in the ability to solve problems in the field for valued customers and partners.

Highlights from booth 1313 include:

EDI: Aeration for Life™

- Panel, tube and disc diffusers
- New Digital Dynamic Wet Pressure (DDWP) monitoring system
- A wide selection of aftermarket parts and live aeration maintenance demonstration.

EOSi: Empowering Clean Water®

- #1 trusted methanol alternative, MicroC® non-hazardous carbon sources
- Award-winning Nitrack® Advanced Automation
- Exclusive demos of HMI cloud-based monitoring and controls.
- Attend the technical presentation: N_2O Unmasked: Understanding and Taming Emissions.

Napier-Reid: Engineering excellence since 1950

- SBRs (sequencing batch reactors), including Bio-Batch™ SBR's vertical-shaft decanter
- Water treatment packages configured to meet the toughest demands while providing consistent advantages like unique stainless wavy-wall structures.
- Full range of technologies, including rotating biological contactors (RBCs), clarifier, DAFs, membrane filters, and more.

Axius Water companies

Nexom: Technologies for cleaner water

- Filtration, including made-in-America pile cloth filter from MITA Water Technologies—now an Axius company.
- Intensified treatment, like the BioPorts™ MBBR or IFAS that gets maximum mixing from EDI's CoarsAir™ coarse-bubble aeration.
- Lagoons, like the singular SAGR® post-lagoon cold water nitrification that can meet <1 mg/L ammonia in water <1°C.

Triplepoint in booth 329 will illustrate why Lagoons Do It Better™

- Patented, BABA-compliant Ares Aerator® combines efficient fine-bubble aeration and robust coarse-bubble mixing in a single, portable unit.
- Low-maintenance NitrOx® reliably meets low effluent ammonia limits—even in cold weather—in a small footprint.
- Cost-effective lagoon solutions, including total nitrogen removal and filtration for solids and phosphorus reduction.

If you are unable to attend WEFTEC, visit the new axiuswater.com to learn more about the Axius mission around stopping nutrient pollution.

EDI® (Environmental Dynamics International®) – Global wastewater solutions provider with advanced aeration design, equipment, and aftermarket services since 1975. wastewater.com

EOSi™ – Experts in biological nutrient removal solutions, premium non-hazardous carbon sources and advanced process control. microc.com

MITA Water Technologies® – Leading European supplier of wastewater biological and filtration systems for small municipal or industrial treatment facilities, or for large urban plants. mitawatertechnologies.com

Napier-Reid® – Engineered water and wastewater systems with 3,000+ installations in 40+ countries since 1950. napier-reid.com

Nexom® – Proven filtration, biological and lagoon-based wastewater solutions to reduce key nutrients that contribute to pollution. nexom.com

Triplepoint™ – Preserving small-town lagoon systems by engineering solutions that allow them to meet modern effluent standards. lagoons.com

About Axius Water® – Axius Water was founded in 2019 by KKR's Global Impact Fund, in partnership with XPV Water Partners. Axius' differentiated products and services improve the effectiveness of the water and wastewater treatment process, thereby measurably improving the quality of treated water. The platform is expanding globally as it builds a diversified portfolio of operating companies that offer leading solutions that improve the overall wastewater management processes.
